SERVICES

One – stop software agency

Do you need a non-standard web solution?

B2C & B2B web systems & apps

We will conduct an analysis of your needs and understand how your business processes work in order to implement the software which your company really needs.

Do you need additional IT resources?

Outstaffing

Hire createIT web experts in the developer outsourcing model (body leasing). Expedite the tedious recruiting process and optimize operating costs.

Is it time for an e-shop?

Wholesale & retail e-shops

We have created multiple and various online stores, from small e-boutiques, through FMCG e-supermarkets, to wholesale B2B e-commerce systems.

Do you have a small business and need an instant application?

Themes Plugin

A template is an ideal way for fast and inexpensive launch of a new professional Internet website.

SERVICES

One – stop software agency

Do you have an idea for a mobile app?

Mobile apps

30% of Internet communication is generated by users of mobile devices. You need to reach them. We can help you by designing a modern & user friendly app.

Do you need a hand with your digital visibility?

Digital marketing & SEO

We can help you build brand awareness, generate leads and drive website traffic thanks to SEO and PPC campaigns. We know how to bust your business with online marketing!

Is it time for a game changer?

Mobile & desktop games

We will fulfill your idea of a new game by preparing it step by step, starting with an engaging game scenario, preparing UX graphic design and all other ideas you may have.

Shall we build a website for you?

Internet websites

We deliver corporate websites and e-business cards. We focus on making your website pixel-perfect, user-friendly and technologically complete to enhance your online visibility and customer communication.

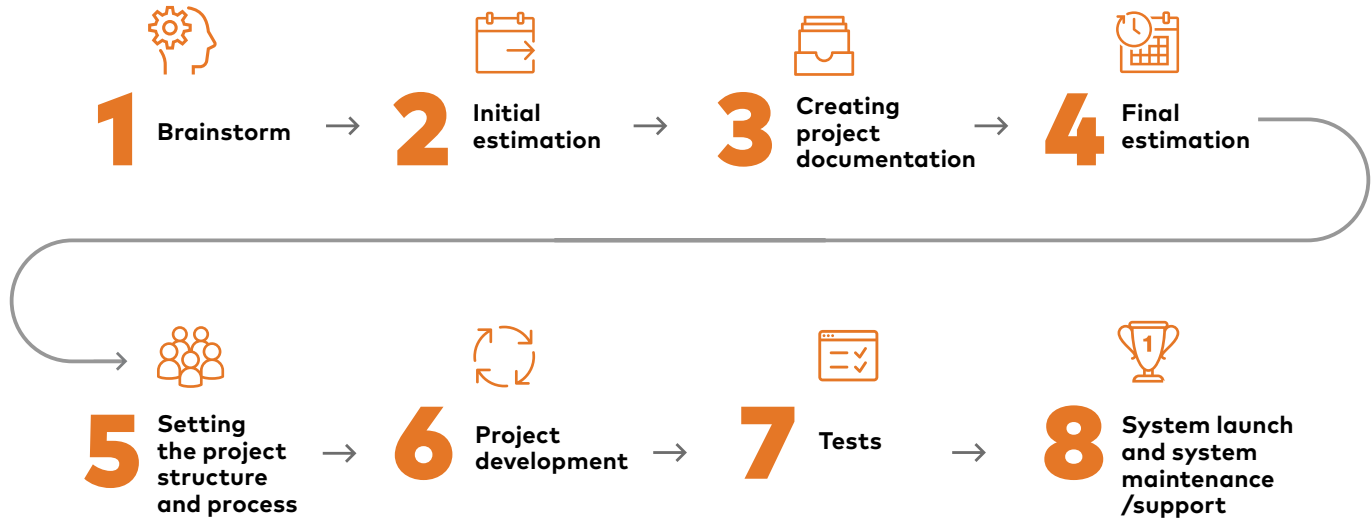

createIT team working on your web system or app

Each project is run by our experienced team consisting of:

- ✓ **Senior Technology Developer**
(of similar applications to control the technical)team)
- ✓ **Mid or Senior Developer** (depending on its complexity)
- ✓ **Business Analyst**
- ✓ **System Architect**
- ✓ **Graphic & UI/UX Designers**
- ✓ **QA Specialists & Application Testers**

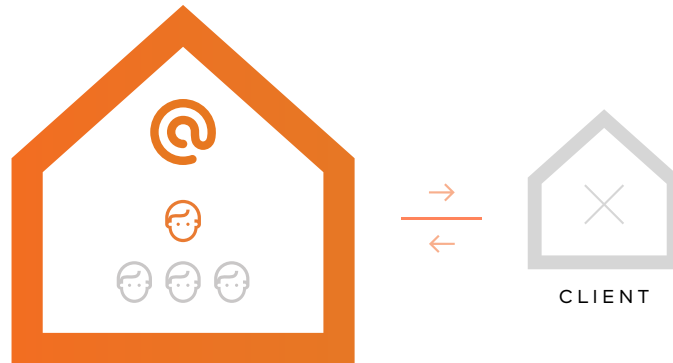

Standard createIT flow while working on your web system or app

PROJECT
APPROACH

Standard createIT flow while offering services in the project model

CREATEIT

Project Manager

Developers

1. Client **does not have** his own developers.
2. createIT developers work for client with createIT Project Manager as a team leader.

Some examples of our projects

International Dairy Federation

Intranet (2016)

Intranet system to be used by 500 employees of the International Dairy Federation (IDF): leave management, working time, document exchange, news, training organization, and more.

Technology stack: Symfony, Linux, PHP, external REST API

CityTalks

B2C Desktop & Mobile App (2018)

The app providing the audio travel guide consisting of a mobile app and a web platform. The system notifies users while they are passing a historical spot around the city in order to encourage them to listen to the story of the given place.

Technology stack: REST API, JWT, OAuth2, ObjectiveC (iOS), Java (Android), Symfony (PHP), WordPress (PHP), MySQL, Redis, Native Mobile Apps Android & iOS

Zombie Road Trip

Mobile game server management (2013)

A mobile game achieving a TOP100 position in the category of mobile game bestsellers. Applying Amazon Simple Notification Service to send 15 million notifications about the new app.

Technology stack: AWS Cloud Architecture & Deployment, PHP, Symfony

Standard createIT flow while offering web developer outsourcing services in body leasing model

CLIENT 1

CLIENT 2

1

From the createIT team we assign developer most suitable for your project.

2

The selected developers work exclusively for you. You manage, assign and acknowledge the tasks yourself.

3

We deal with matters related to HR and potential replacements.

4

You decide how long the cooperation should last. You can quickly and easily increase or decrease your HR resources.

DEVELOPERS OUTSOURCED TO CLIENT 1

1. Client 1 **does not have** his own developers.
2. createIT developers outsourced to client.

DEVELOPERS OUTSOURCED TO CLIENT 2

1. Client 2 **has** his own developers.
2. createIT developers outsourced to client.

OUTSTAFFING CASE STUDIES

Some examples of our outsourcing services

crgd GMBH

Outsourcing services since 2016

Development of crgd GMBH custom e-commerce platforms for wholesale and foreign trade, based on OXID framework. Currently 4 back-end developers and 1 front-end developer outsourced with a potential for more.

Technology stack: OXID, PHP

5 developers outsourced

Freedom United

Outsourcing services since 2015

A WordPress website supporting a huge, worldwide traffic of over 6 million followers of the Walk Free Foundation. Creation from scratch as well as maintenance services.

2 developers outsourced.

**Technology stack: Symfony,
WordPress, REST, Linux**

2 developers outsourced
with Project Manager ontop

National Sports ID

Outsourcing services since 2015

Creation of the system from scratch in the body leasing model. Architecture and graphic design, implementation based on Symfony, maintenance and server managements services.

2 developers outsourced.

**Technology stack: Symfony, OAuth 2.0,
REST, Linux**

2 developers outsourced

WHY US

REFERENCES

“

cgrd

„Onboarding new developers worked like a charm. createIT sent us devs to Hamburg. We also visited them in Warsaw. [...] In addition to the technical knowledge and work performance of the four devs, also appreciate the time input we get from createIT owners Bartek and Aleks. It's a very open-minded and valuing partnership.“

Henrik Steffen

**MANAGING DIRECTOR AT CGRD GMBH
– OUTSOURCING 5 PHP DEVELOPERS**

“

FREEDOMUNITED

„The gang at createIT has come through time after time no matter the project. From simple CSS changes to complex site structures with lots of integrations, they're willing to take the time and build things right the first time. As we are a US-based organization, outsourcing overseas is often a major challenge but our friends and partners at createIT have made it an outstanding experience. We are huge fans and would highly recommend them for any technology project...big or small.“

Joe Schmidt
